10 months

### National Statistics Committee of the Republic of Uzbekistan

Tashkent

#### Middle Mobile Developer

Implemented government-standard GOST 34.12-2018 encryption using native JNI integration, managing platform channels between Flutter and Kotlin for secure census data transmission

Working on the population census project, focusing on data collection, processing, and analysis for national statistics.

Architected offline-first mobile census system handling 500+ survey submissions with automatic synchronization, background location tracking, and intelligent queue management

Developed enterprise authentication supporting OneID SSO, national ID (PINFL) verification, JWT token refresh, and biometric screen lock with automatic session management.

Integrated Shorebird code-push for OTA updates supporting multiple flavors (dev/test/prod) enabling instant bug fixes without app store deployment.

Coordinating with relevant government departments to ensure alignment in census data processing.
